Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Claims 1 – 12, 35 – 38, and 40 – 47 are allowable over the prior art for the reasons set forth in the last Office action (October 28, 2003). New claims 48 – 51 and 53 are allowable over the prior art at least for the reasons previously set forth with respect to their respective base claims. Claims 39 and 52 are allowable over the prior art since:

The prior art, taken alone or in combination, fails to teach or to fairly suggest, in the zoom lens system having a diffractive optical surface located on an object side surface of an optical element of the *fourth unit, the fourth lens unit comprising three lenses*, as now recited in claim 39.

Hayashi, et al (U.S. Patent number 6,002,519) discloses a zoom lens system comprising three lenses in the fourth lens unit, but the second unit comprises a decentered lens. Hayashi, et al expressly teach that the second lens unit *does not move* upon zooming from the wide to telephoto end.

Although Hoshi, et al (U.S. Patent number 5,815,320) disclose a zoom lens system with three lenses in the fourth unit, the surfaces having the lowest curvature (in examples 5 – 7) are image side surfaces. Thus, since it is known to select a relatively low curvature surface for placement of a diffractive surface, one would *not* have been motivated by manufacturing ease to select a surface an object side surface in the system of Hoshi, et al.

Art Unit: 2872

Applicant requested that the examiner provide a reference in support of the taking of Office Notice related to surface selection. Applicant's attention is directed to the "Response to Amendment" section in the final rejection of October 28, 2003.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

OLYMPUS OPTICAL (JP 06-324262 A) disclose a lens system with a diffractive surface. An abstract of this reference was enclosed with Applicant's I.D.S. of April 18, 2001. However, the citation on form PTO-1449 was to JP 6-234262, and the publication pages included were not directed to a lens system. The citation on examiner's form PTO-892 is intended to clarify the record that JP 06-324262 A has been considered in its entirety.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Post-allowance papers should be mailed to **Box Issue Fee**. Post-allowance papers may also be faxed to correspondence branch in PUBs. The fax number is (703) 308-5083. The **PUBs customer service** number is (703) 305-8497.
